

Shelly Aluminum

Dimensions :

w 57cm x d 67cm x h95cm

Weight: +/- 12 kilos

Materials: Aluminum Polished

Shelly by Peter Donders is a one surface (shell) cast from a 3D print. Based on the 3D print, a mould is made to cast the chair. At some points you can still notice the original 3D print. The limited edition chair has a polished finish. Shelly is a supreme example of how digital technology and crafts can be blend together.

Limited Edition of 12
